NOTICE: UPDATE ON THE REVISED PLATFORM FOR THE EML CLINICAL GUIDE APPLICATION

As indicated in circulars issued in September and October 2020¹, the EML Clinical Guide application is currently being re-platformed. This has resulted in users being unable to access the Standard Treatment Guidelines (STGs) and Essential Medicines List (EML) through the application. However, information was provided on how to access the STGs and EML using other platforms

Re-platforming of the EML Clinical Guide application is nearly complete and it is anticipated that Android users will be able to access the application in **March 2021**. The Apple iOS version will be available shortly thereafter.

The application will be freely available for download as follows:

- Go to "*App Store*" on iPhones or "*Google Play Store*" on Android phones
- Search for "*S.A. CLINICAL GUIDELINES AND EML*";
- Click on the install tab;
- Click 'open' to gain access to the application.

Please note that printed, PDF and mobile application formats of the guideline have been accepted and recognised by the National Department of Health as official versions of the guideline. We would like to thank you for your patience during this time and will provide further information once the application can be accessed.

Kindly share this communication with all relevant stakeholders.

Queries may be submitted *via* e-mail to: SAEDP@health.gov.za

Kind regards

MS K JAMALOODIEN
DIRECTOR: AFFORDABLE MEDICINES

DATE: 09 ~~September~~ 2021
March

¹ Revised platform for the EML Clinical Guide application [2020/09/22/EDP/01] and [2020/10/29/EDP/01]
